5.4 Nature and Extent of involvement of Faculty and students in academic affairs/improvements

Student-centric learning is provided in the practical sessions. GCC has deployed several practices for the active participation of students in the Teaching-Learning Process. Lab sessions that comprised both software and hardware, assist in experimental learning and permit the students to enhance their knowledge and skills. It motivates students to do new research in the current technologies. Multimedia teaching like PPTs is incorporated in the day-to-day teaching-learning process that enhances the students' understanding of the subject. Lectures, seminars, and workshops by subject & industry experts are organized by the respective departments, to provide knowledge beyond the prescribed syllabus.

Course Delivery Methods:

NPTEL video (GCC has local chapter)

EDUSAT IIT Bombay – spoken tutorial project (MOOCs), etc.,

Students are encouraged to organize and to participate in Inter-collegiate events like science exhibitions, project exhibitions, etc., which brings out the potential of the students. In addition to academics, our college encourages the students to participate in NSS and other social activities like blood donation, etc. Students are doing the internship as per the curriculum to build a relationship with industry/organization.

The faculty members of GCC are encouraged to pursue higher studies (Ph.D.), to upgrade their qualification & skills. They also attend FDP, workshops, conferences & seminars to enrich the knowledge. The faculties are motivated to take MOOCs for improving their skills which is useful for students in class room teaching. Most of the faculties got NPTEL certificates.

5.5 Mechanism/ Norms and Procedure for democratic/ good Governance Nature of Governance:

- ✓ We at GCC shall work continuously to achieve:
- ✓ Work with integrity- We act with honesty. We build people
- ✓ Innovative & delivers-We fulfill commitments. We architect excellence
- ✓ Work together-We work as a team. We promote communities.

All the efforts made by the institution body to achieve the vision and mission are the very nature of governance of the institution. The governing council body along with the chairman set a clear goal to improve the academic progress.

The college observes decentralized decision making in order to encourage transparency in staffs both in academic and administration. The chain of command consists of management and principal in the top hierarchy followed by the head of departments in the middle level and the

staffs in the lower-level hierarchy. The

corresponding activities are proposed by the principal and head of departments and approved by the management. Committees are formed for every sub tasks consists of staffs from every department as members headed by main co-coordinators for every committee and circular are sent and changes in the committee members are encouraging according to the staffs interest and passion. Regular meeting are held for various committees which gives a platform for every member to express his/her ideas. The budget for the respective committee is discussed with the members and main co-coordinators and the proposal is given to the principal for further decision making. Thus decentralization improves decision making and has produced results in terms of coordination, idea generation and personal growth towards academic and administration.

5.6 Student Feedback on Institutional Governance/ Faculty performance

Feedback collection, analysis & action taken- From Students

The institution collects the feedback from stakeholders viz. Students, Faculties, Parents & Alumni by using various online & offline modes on curriculum aspects and courses, faculty performance, general facilities etc. from different stakeholders such as the Students, Faculties, Parents, & Alumni by online or offline mode. The college maintains an IQAC as a quality consistence and quality enhancement measure. The collected feedback from the stakeholders was analyzed and submitted to the IQAC for necessary modification and implementation in the institution.
