

Inauguration of “ASTRONOMY CLUB”

The “*Astronomy Club*” was inaugurated on *13th of December, 2022* by **Professor Elangovan Rajgopalan**, former ISRO Scientist. The purpose of the club is to promote the study of astronomy and space science among the students and to provide them with opportunities to pursue their interests in this field. The inauguration ceremony was attended by students, faculty members, and guests. Professor Rajgopalan was warmly welcomed by Prof. Praveen, co-ordinator of the club, who introduced him to the audience.

The formation of the “Astronomy Club” will provide the students with a platform to pursue their interests in this field and to collaborate with others who share their passions. The club will also provide the students with opportunities to participate in various events, workshops, and competitions related to astronomy and space science. Overall, the inauguration of the “Astronomy Club” was a highly positive step for the students of the department and will go a long way in promoting the study of astronomy and space science in the institution.

ASTRONOMY CLUB **("THE ASTROCRATS")**

Astronomy has always been the most unique subject of science and always keep students interested and curious about the aspects of Astronomy. With India's current success, it has created new opportunities and almost every student has genuine curiosity on cosmology, space science, astrophysics etc. So through this club we need to spread the awareness and provide a common platform for all the Astronomy enthusiasts of the College. The Astronomy Club "The Astrocrats" in the department of Aeronautical Engineering of Gopalan College of Engineering & Management work solely towards providing a proper platform on the study of Astronomy through various activities and events (viz Quiz, Workshops, Seminars, Guest Lectures etc.,)

OBJECTIVES OF THE CLUB

1. To promote & foster the development of astronomy and related technology.
2. To encourage the associations & groups interested in astronomy including other organizations, clubs & colleges.
3. To cooperate with, advise and assist students interested in the science and hobby of astronomy.
4. To arrange viewing night sky for students and, at times for the public at chosen sites using various telescopes.
5. To set up and run an observatory at a suitable site for membership and community use
6. To encourage & arrange lectures & demonstrations at the university.
7. To encourage students to see future in this field.

VISION OF THE CLUB

The Main Focus of the “Astrocrats” Club is to encourage the students who are interested in the field of Astronomy with the means of workshops and seminars organised by the club and taken by the experts and scholars in this field
