12. **Objective:** To provide a platform for students to apply theoretical knowledge, showcase technical skills, and promote innovation through project-based learning.
13. **Summary:** The Department of Information Science and Engineering organized a Mini Project Exhibition on December 23rd, 2024, at the 3rd floor auditorium, highlighting the creativity and technical capabilities of students. A total of 20 teams, each comprising three members, presented projects based on core subjects such as DD & CO, Operating Systems, Java, and Data Structures and Algorithms. The exhibition featured a diverse range of both software and hardware projects, demonstrating practical application of academic concepts. The projects were evaluated by two external examiners based on criteria including concept, execution, and implementation. The event concluded with the recognition of the top-performing teams, with Keerthan and team securing first place, followed by Kishore and team in second place, and Lakshmi and team in third place. The winners were honored with prize money by the Principal, Vice Principal, and Head of the ISE department, encouraging continued innovation and teamwork among students.
14. **Benefits:** The event enhanced students' practical understanding of core subjects, encouraged innovation and teamwork, and provided valuable experience in presenting and evaluating technical projects. It also promoted problem-solving skills and boosted confidence among participants.
