1. Activity/Event Name: **FDP on “AI Tools in Education”– Quarter 2 (3 months)**
2. Thrust Area of the Event/Program: **Validation and Concept Development**
3. Level of the Activity/Program: **03**
4. Semester of the Event Conducted: **Semester 1**
5. Quarter of the event conducted: **Quarter 2 in February 2026**
6. Date of the Event/Program/etc: **11th Feb 2026 to 17th Feb 2026**
7. Duration of the Event/Program: **1080 minutes**
8. Number of faculty participations: **86**
9. Number of Students Participated: **NA**
10. Funds utilized for the Event/Program: **Rs.25000**
11. Department: **Department of CSE and CSE(AI&ML) in collaboration with IIC - GCEM**
12. **Objective:** The Faculty Development Program is designed to give teachers a deep understanding and hands-on experience with Artificial Intelligence (AI), Machine Learning (ML), and Large Language Models (LLMs). This helps them use AI effectively in their teaching and within the institution. The program focuses on improving AI awareness among faculty from different fields, explaining how AI differs from regular educational tools, and showing how AI can be used in lesson planning, designing lessons, and creating content that follows Bloom’s Taxonomy and Outcome-Based Education (OBE) standards. Participants learn to create ready-to-use classroom resources like lecture notes, slides, worksheets, multimedia content, exams, grading rubrics, and assessment tools, all while ensuring fairness, transparency, and ethical use of AI. The program also supports AI- driven research tasks such as reviewing literature, writing academic papers, keeping track of plagiarism, drafting funding proposals, and managing citations. It also covers using AI in academic management, automating accreditation processes like NAAC, NIRF, and IIC, and helps create a long-term plan for the institution to keep integrating AI smoothly and keep faculty updated with new skills.
13. **Summary:** The six-day Faculty Development Program on "AI Tools in Education" was held in a hybrid format to help faculty gain practical skills in incorporating Artificial Intelligence into teaching, evaluating students, conducting research, and managing academic operations. The program included topics like AI basics, using AI for lesson planning, assessments aligned with course and program outcomes, creating educational content, writing research papers, drafting proposals, and following ethical guidelines for AI. These sessions used real-time demonstrations of popular AI tools. The FDP followed

COUNCIL**
(Ministry of HRD Initiative)

the planned schedule and had a lot of active involvement from participants, with engaging discussions that helped improve their understanding of AI, encourage innovative approaches, and prepare the institution for effective use of AI.

14. Benefits: Participants get hands-on experience with various AI tools like ChatGPT from OpenAI, Perplexity AI, Google Gemini, MagicSchool AI, NextSchoolAI, Custom GPTs, Gamma.app, NotebookLM, Canva AI, Elicit, Connected Papers, and Fireflies.ai. These tools help faculty design lesson plans, create structured lecture notes, make PowerPoint presentations, build question banks, and prepare classroom-ready materials more efficiently. MagicSchool AI and NextSchoolAI are useful for creating assessments, designing rubrics, making quizzes, and planning differentiated learning strategies. ChatGPT and Google Gemini support making content that aligns with Bloom's Taxonomy and mapping course objectives to learning outcomes. For research, tools like Elicit and Connected Papers help in doing systematic literature reviews, mapping research, and identifying gaps. Notebook LLM helps organize and synthesize content. Canva AI and Gamma.app make it easy to create professional presentations and visual teaching materials. Fireflies.ai helps with documenting meetings and collaborating academically. Overall, the FDP helps faculty improve their teaching, boost research productivity, automate administrative tasks, use AI ethically, and promote innovative, tech-based education practices in their institutions.

ABOUT GCEM

The Gopalan College of Engineering and Management, Whitefield, Bangalore (GCEM) is an institute which provides quality education in a diverse and multi-cultural environment. GCEM celebrates the power of knowledge, cultivates vision and encourages new ideas, while also inculcating human values. Its transformative engineering education includes a broad-based curriculum underscored by multi-disciplinary courses and cross-faculty enrichment, as well as special programmes which allow students to realize their potential and make them competent, inspired and successful professionals. Approved by AICTE and affiliated to Visvesvaraya Technological University, Gopalan College of Engineering and Management (GCEM) has been one of the top engineering colleges in Bengaluru since 2010.

ABOUT DEPARTMENT OF CSE

This is one of the most prestigious courses offered by this institution with an average Intake for CSE Department increased for academic year 2024 from 120 to 180. This course covers most of the advanced topics in computer hardware and software. This will enable the students to get a thorough idea of the theory and design of computer architecture, networks, communication etc. The program got NBA accredited in the year 2024.

The course provides facility to do experiments on software and computer hardware in order to gain a strong background of the engineering technologies in computer communication and network. The curriculum offers to develop the programming skills of the students from the very basic level to a professional level to the emerging challenges of the present software development in industries.

ABOUT DEPARTMENT OF CSE (AI&ML)

The Department of Computer Science and Engineering (AI&ML) is one of the specialized and emerging programs offered by the institution. Owing to its growing importance and demand, the intake for the program was increased from 60 to 120 in the academic year 2025.

The program focuses on developing intelligent systems capable of learning and decision making by integrating core computer science concepts with advanced Artificial Intelligence and Machine Learning techniques. The curriculum covers fundamentals of AI&ML, machine learning algorithms, deep learning and neural networks, natural language processing, and computer vision.

TOPICS

- Role of Educators in AI-Enabled Teaching
- Foundations of Artificial Intelligence in Education
- Ethical & Responsible Use of AI in Academics
- AI for Content Creation (Lesson Planning & Curriculum Design)
- AI-Based Teaching Support Tools (PPTs, Notes, Question Banks)
- AI Tools for Student Engagement & Active Learning
- Prompt Engineering for Educators
- AI-Based Assessment Design (Quizzes & Rubrics)
- Automated Grading & Feedback using AI
- Personalized Learning with AI
- AI for Research Discovery & Literature Review
- Research Mapping & Gap Identification
- AI for Academic Writing, Paraphrasing & Referencing
- Reference Management & Citation Tools
- Future Trends of AI in Education
- AI Implementation Strategies for Classrooms & Institutions
- AI Tools will be covered - ChatGPT, Perplexity AI, Google Gemini, MagicSchool AI, NextSchoolAI.com, Custom GPTs, Gamma.app, NotebookLM, Canva AI, Elicit, Connected Papers, Fireflies.ai.
