

The biggest Challenge that any teacher would face in any learning session is to capture and sustain the student's attention during conduction of classes. To make this happen, classroom experience has to be redefined with innovative ideas which would in turn make the teaching learning process more effective. Apart from traditional chalk and talk method of teaching-learning, the following various tools and techniques are used to make teaching more active and innovative.

- 1.ICT based teaching-learning(Videos,PPT,smartboard,Projectoretc.)
- 2.Mind Map
- 3.Quizzes
- 4.Virtual classes through MS Teams
5. Vtu e-shikshana
- 6.NPTEL
